Businesses / associations – non-voting members

Our Mission

Cooperating with government officials in advancing the gaming industry's common goals and objectives;

Promoting comprehensive and fair regulation of the gaming industry to insure integrity at all levels of operation;

Advocating fair and reasonable taxation of the industry, which will permit operators to maximize employment opportunities and re-invest, expand and improve existing facilities

Promoting and participating in public education throughout Mississippi regarding the benefits of casino gaming, including job creation, economic development and how the industry can help the State in maximizing its tax revenues; and

Supporting and enhancing responsible gaming programs and offering education and assistance to individuals with gambling problems

Best August ever for casinos

*State's take
for year hits
\$1.98 billion*

By MARY PEREZ
meperez@sunherald.com

Coast casinos celebrated the 15th anniversary of gambling in Mississippi by posting their best August on record with \$108.9 million in gross gaming revenue.

In July, boosted by the blockbuster opening of Hard Rock Casino, the Coast set an all-time one-month record of \$124.7 million. That dropped 12.7 percent in August but still topped the \$105.9 million previous August high set in 2004. When Hurricane Katrina closed all the casinos

in 2005, the revenue for August was \$105.9 million.

"It doesn't really surprise me," said Beverly Martin, executive director of the Gulf Coast Gaming Association, of August's lower revenue. "That's kind of typical," she said, because school locally starts in early August and tourists and "voluntourists" are also occupied with back-to-school. "It really does affect the tourist season," she said of starting school before Labor Day.

Revenue also sagged at casinos in Mississippi's river counties in August, slipping 8.5 percent from \$143 million to \$130.9 million. With both the Coast and river casinos lower, the state revenue dropped almost \$28 million from July to August.

The total state revenue so far this year stands at \$1.98 billion, making the goal of \$3 billion by the end of 2007 still attainable with a third of the year remaining.

the Biloxi law firm of Brown Buchanan and a casino development consultant, said investors look at the monthly revenue, and the fluctuations "might impact the scope of their project," causing them to scale down their plans or build in phases.

The positive numbers are creating a buzz beyond the regional market of neighboring states where the casinos traditionally market. Bruffey said the expansion of Gulfport-Biloxi International Airport and more non-casino attractions are key to expanding the marketing area of the casinos well beyond the Coast.

With casinos building and still rebuilding, "We'll be able to tell more when we look at next month's trends," Martin said. "We're anxious to see how November is when the bridge opens. We just don't know," she said, whether the reopening of the Biloxi Bay bridge brings more than two years will bring higher profits to the Coast casinos.

Discussion of Different Visitation Drivers:

Casinos

2014 Key Statistics

“Convenience Gaming” has taken toll on visitation with 15 million out of state visits compared to 20 million in 2011.

Casinos have invested billions into our state supporting numerous businesses.

We must encourage more investment and diversity of business.

Leading Locations for 2015: The MSAs with Soundest Economic Strength Indicators

Low Tax Rates

Reasonable Labor Costs

Public Private Investment

Casinos

AGA Annual 2013 Report

53% of visitors to casino engage in activities outside casino

65% in a younger demographic → know your customer

We must be able to compete for Millennials

What is Needed To Compete for Millennials:

Skill Based Games

Online Gaming

Fantasy Sports

Sports Betting

Non-Gaming Amenities

2011 PWC Study

Emphasis on adding Non-Gaming Amenities in Tunica

2014 MS Casino Total Revenues: \$2.86 billion

Gaming: \$2.08 billion

Non-Gaming \$780 million = 27%

Non-Gaming presents opportunity for growth.

Last year, the Las Vegas Strip generated more revenue from non-gaming amenities than gaming.

Rule 1.5 of MGC
